

Scatter Tubes - New Zealand Inspired

Simplify scattering ashes with a beautiful biodegradable scattering tube.

These durable, cardboard scatter tubes are created from over 90% recycled materials, making them a very environmentally friendly choice for scattering ashes on land or water. They feature a perforated tab which is pushed inwards prior to scattering. If ashes are to be scattered in several locations the removable lid can be replaced on the tube to keep ashes secured between scattering sites.

Scatter Tubes - New Zealand Inspired

Simplify scattering ashes with a beautiful biodegradable scattering tube.

These durable, cardboard scatter tubes are created from over 90% recycled materials, making them a very environmentally friendly choice for scattering ashes on land or water. They feature a perforated tab which is pushed inwards prior to scattering. If ashes are to be scattered in several locations the removable lid can be replaced on the tube to keep ashes secured between scattering sites.

Wakatipu

Watercolour Butterflies

The tubes may be available in either large, small or keepsake size. Small is generally for a child.

Sizes available:

- Large (32 cm)
- Small (13.3 cm)
- Keepsake - (8.9 cm)

Please note:

- Colours may vary slightly from pictures shown.
- Not all scatter tubes are held in stock.
